Education

Indian Institute of Information Technology, Ranchi

B.Tech in Electronics and Communication Engineering **CGPA: 7.36**

Aug. 2023 – May 2027

Ranchi, Jharkhand

Professional Summary

Software Engineering student with backend development experience in **Java and Spring Boot**. Built RESTful APIs and database-driven applications using Spring Data JPA, PostgreSQL, JWT, and Docker. Strong foundation in **Data Structures & Algorithms, OOP, and DBMS** with experience developing full-stack applications using React.js, Node.js, and MongoDB.

Experience

Badkul Technology

Backend Developer Intern

Dec. 2025 – Feb. 2026

Remote

- Developed backend modules using **Java and Spring Boot**, following clean and maintainable coding practices.
- Built and integrated **RESTful APIs** for backend functionality and application workflows.
- Worked with **SQL databases and Git** while developing and testing backend features.

Projects

MeetFlow – Event Management Platform

React.js, Node.js, Express.js, MongoDB, JWT

2025

- Developed a full-stack event management platform using **React.js, Node.js, Express.js, and MongoDB**.
- Implemented **JWT-based authentication and role-based access control** for secure user and administrative workflows.
- Built RESTful APIs for event creation, management, registration, search, and filtering.

Spring Budget API – Expense & Budget Tracking

Spring Boot, PostgreSQL, Spring Data JPA, Flyway

2026

- Developed REST APIs for **expense and budget tracking** using Spring Boot and PostgreSQL.
- Implemented transaction, category, budget, and account management using **Spring Data JPA and Flyway**.
- Built APIs for managing income, expenses, and category-based budgets across multiple time periods.

Prof-Info Central – Professor Project Management

React.js, Node.js, Express.js, MongoDB, JWT

2026

- Developed a full-stack student-faculty management platform supporting project creation, assignment, and management workflows.
- Implemented **JWT authentication and role-based authorization** for secure faculty and student access.
- Built RESTful APIs using **Node.js and Express.js** with MongoDB for persistent project and user data.

Technical Skills

Languages: C++, Java, JavaScript, SQL

Backend: Spring Boot, Spring Security, Spring Data JPA, Hibernate, REST APIs, Node.js, Express.js

Frontend: React.js

Databases: PostgreSQL, MongoDB

Cloud & DevOps: AWS EC2, Docker, Docker Compose, Maven, Git, GitHub

Tools: Postman, Swagger/OpenAPI, IntelliJ IDEA

Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Design Patterns

Certifications & Achievements

- **AWS Cloud Technical Essentials** – Amazon Web Services, covering EC2, S3, RDS, IAM, VPC, Lambda, Serverless Architecture, and Cloud Security.
- **PostgreSQL for Everybody** – University of Michigan / Coursera, covering SQL Queries, Joins, Indexing, Query Optimization, Database Design, and Normalization.
- Participated in a **Google Developer Student Clubs Hackathon**, collaborating on a software project and solving practical development problems.
- Secured a rank in the **Top 5% in JEE Main Examination**.
